

Executing and Testing the Model:

Initial Page after starting the Application

A screenshot of the prediction form within the application. The browser window shows multiple tabs, with the active tab displaying the URL '127.0.0.1:5000/predict_page'. The form is titled 'Predicted Resale Value of Your Car' and is enclosed in a light gray rounded rectangle. It contains several input fields and radio buttons for user input: 'Registration year :', 'Registration Month :', 'Power of car in PS:', 'Kilometers that car have driven :', 'Gear type :', and 'Your car is repaired or damaged :'. The 'Gear type' and 'Your car is repaired or damaged' fields use radio buttons with labels 'Manual', 'Automatic', 'Not declared', 'Yes', 'No', and 'Not declared' respectively.

Fill all the Details in the Form and click submit button for the resale price of particular car
